

Query List for Bangalore Metro Project dated on 28th April 2007

Sl. No.	Clause No.	Original Writing	Query	Replies furnished
1.	No.6.0, page No.8	“The consortium or its members individually or jointly as member of other consortia in their respective roles viz. (i) Design and Manufacture of Car bodies, bogies and other mechanical equipments. (ii) Design and Manufacture of traction propulsion and control equipments and (iii) Complete integration of all sub-systems and equipments, should have carried out assembly and supply of a minimum of 200 nos. of cars with similar traction propulsion system in the preceding 10 years ending 31st March 2007.”	CRC intends to do this project as a single company, which can satisfy requirements of (i) and (ii). But CRC does not produce traction propulsion and brake equipments, so we would like to ask whether it is ok that CRC is attending this tender alone under the cooperation with traction propulsion and brake equipment manufacturers as sub-suppliers of CRC ? Or CRC has to form a consortium with the traction propulsion and brake equipment manufacturers?	This is more clearly explained on Page.11, Note:2. To satisfy eligibility criteria, consortium has to be formed. Also refer corrigendum-1: dt :2/5/2007 at Sl. No.:6.
2.	3 rd paragraph, Page No.12	“Where A=Maximum value of Rolling Stock in any one year during last 10 years”	It means that the total amount of value of the rolling stocks for all the projects we made in any one year or just for one project.	Max value of Rolling Stock in any one year during last 10 years supported by supply invoices/ client certificates will be considered for bid evaluation Reference may also be made to Note 1 to 3.
3.	4 th paragraph, Page No.12	“N=No. of years in which supply is to be made”	It means that No. of years in which we supply rolling stock during last 10 years or means in which year we made maximum value of rolling stock among the last 10 years.	Page ‘12’ states no. of years which supplies is to be made (may be taken as 3 in this case). Reference may also be made to Note 1 to 3.
