NOTIFICATION

Subject: Overview of Metro Rail System – 5-day course for Engineering College Students.

The role of rapid transit in Bengaluru is ever expanding and Metro Rail is spearheading the government's effort to plan, design, improve and maintain the most modern and cost-efficient rapid transit system in the country.

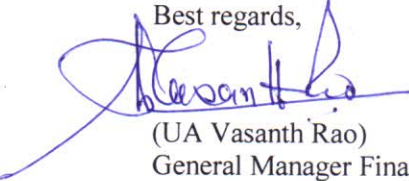

The 'Namma Metro' Rail system being the most modern rail system in the country, we would like to share the various aspects metro construction and its operating systems with the college students under our new 5-day program designed for engineering college students of all branches and all semester.

The program will be conducted by well-experienced staff of BMRCL who have not only passed out from the best of engineering colleges in the country, but have the first hand practical knowledge in the construction of the Metro System. In this 5-day program we propose to engage the student with the various nuances of the construction technology and other engineering aspects through a power point presentation followed by Q & A sessions. We also propose to take the students on a site visit to the construction area and to the depot, to get an insight into the working of the traction, signaling and telecommunication systems. This course is conducted only with a view to give students a firsthand knowledge of the metro system and not an assurance of an employment at the BMRCL.

We are commencing this course beginning from January 2015. The course commences on Monday and concludes on Friday and is scheduled between 10-30 to 4-30 with tea and lunch breaks. At the end of the course participation certificate will be issued. We can accommodate only 25 students per batch and the cost for this course if Rs.2,500/- (Rupees two thousand five hundred) only per student. This includes the course contents, site visit and lunch for the participating students.

The reservation for the course must be prearranged and pre-paid and the designated staff will confirm the date and time of the course. The reservation will be based on first come first served. For reservation you may please contact Shri. Upendra Karthik M, Customer Relations Officer, at 9844288808 any day between 11 AM to 5 PM.

Best regards,

(UA Vasanth Rao)
General Manager Finance &
Chief Public Relations Officer.
