**AGENDA NO.8 - REGARDING METRO ALIGNMENT FROM BAIYAPPANAHALLI STATION TO OUTER RING ROAD BRIDGE OF NARAYANAPURA (CH:18470.00 TO 21400.00M) AND DELETION OF NARAYANAPURA STATION IN R-1 EXTENSION BETWEEN BAIYAPPANAHALLI STATION AND WHITEFIELD STATION OF BANGALORE METRO RAIL PROJECT PHASE-2**

HPC noted the Agenda Notes circulated. The Managing Director, BMRCL, briefed the HPC as follows:

The alignment and the stations proposed in the DPR of Phase-2 in respect of Extension of Reach-1 from Baiyappanahalli to Whitefield, has been studied and due diligence done by BMRCL Team for the entire length of 15.5 kms which includes 14 stations. He stated that the various hindrances / constraints have been identified in the said alignment as detailed in the Agenda Notes circulated.

A presentation was made in this regard and the constraints as also the proposed solutions were explained to the HPC. The HPC, in summary, noted the proposal which is as follows:

- (i) K.R.Puram station will be shifted by 295m towards Whitefield in Lowry college premises.
- (ii) Narayanapura station will be deleted.
- (iii) Mahadevapura station will be shifted by 295m towards Whitefield at GAD location near Mahadevapura police station.
- (iv) Garudacharpalya station will be shifted by 75m towards Whitefield.

In view of the above reasons, if Narayanapura station is deleted and Mahadevapura station and Garudacharpalya stations are located at GAD locations, then the inter station distances are as below.

Sl No.	Stations	Station location	Inter-station distance between stations as per GAD in m.
1	K.R.Puram station	Will be in Lowry college premises as per GAD. (GAD location is 295m from DPR location towards Whitefield).	-
2	Mahadevapura station	Will be at GAD location. (GAD location is 295m from DPR location towards Whitefield).	1745
3	Garudacharpalya station	Will be at GAD location. (GAD location is 75m from DPR location towards Whitefield).	975

Managing Director informed that the proposed inter-station distance is not unreasonable for Metro operation. He also informed that the proposal will result in savings as one station gets deleted and also avoids acquisition of 35 properties at Narayanapura station. He informed that the approximate savings on account of this proposal is estimated at Rs.68.81 crores.

HPC after detailed discussions agreed to the proposal as above.
