Sub: - Request for shifting of proposed BMRCL alignment of Metro Phase-2 from Garudachar Palya passing through Kundalahalli, Bus Terminal via Sathya Sai Hospital to reach ITPL.

to

Viable and cost saving route: From Garudachar Palya to Hoodi junction, Shanthinikethan and further towards Whitefield.

We, the under signed request you to humbly interfere and shift the alignment of Metro Phase-2 from Garudachar Palya via Sathya Sai Hospital to reach ITPL instead if the route is directly taken from Garudachar palya, Hoodi to ITPL it will save distance of 3 KMs and avoid atleast 3 stations.

We also understand that the de-tour proposed by the BMRCL will cause undue hardship as there are no residential areas coming under that stretch. Also the BMRCL will take this route to Whitefield and to Hosakote later (due course). But this de-tour will cause an additional distance of 3 KMs and cost of the project will also be substantially high.

Hence, we humbly request your good self to interfere and request the BMRCL to conduct a cost benefit analysis of the de-tour as proposed and cost benefit analysis of the route proposed by us taking the track from Garudachar playa to ITPL. As it will stop the harassment likely to be caused to the future generation and to people going upto Hosakote by BMRCL.

Also, find here with enclosed the Metro network (Phase-1&2) where the routes are almost straight. And there are no de-tours it is only at this stretch between Garudachar Palya and whitefield that BMRCL has proposed a de-tour without justification.

We hereby request you to take up this issue with BMRCL, Central Government and State Government to conduct a cost benefit analysis, and public hearing before finalizing the route for Metro Phase-2
